

## Gold Splash Wintercreeper *Euonymus fortunei 'Roemertwo'*

Height: 24 inches

Spread: 24 inches

Sunlight: ●

Hardiness Zone: 5

Other Names: Wintercreeper Euonymus

### Description:

A vigorous and hardy vine or spreading shrub featuring eye-catching gold variegated evergreen leaves, showy yellow fruit and orange seeds; a versatile and adaptable color accent for almost any garden application, most dramatic foliage occurs in full sun

### Ornamental Features

Gold Splash Wintercreeper has attractive gold-variegated green foliage which emerges gold in spring on a plant with a spreading habit of growth. The glossy oval leaves are highly ornamental and remain green throughout the winter. It produces yellow capsules from mid to late fall.

### Landscape Attributes

Gold Splash Wintercreeper is a multi-stemmed evergreen shrub with a ground-hugging habit of growth. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This shrub will require occasional maintenance and upkeep, and can be pruned at anytime. It has no significant negative characteristics.

Gold Splash Wintercreeper is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- Rock/Alpine Gardens
- General Garden Use
- Groundcover

## Planting & Growing

Gold Splash Wintercreeper will grow to be about 24 inches tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should be grown in a location with partial shade or which is shaded from the hot afternoon sun. It prefers to grow in average to dry locations, and dislikes excessive moisture. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments, and will benefit from being planted in a relatively sheltered location. This is a selected variety of a species not originally from North America.

Note:

Morning sun only. An east or northeast location is preferred.
