Height: 6 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 5

Group/Class: Grandiflora Rose

Description:

A lovely rose shrub with dark green foliage and striped blooms of yellow and red that fade to cream and pink; hardy and highly disease resistant, this selection is an all around garden shrub

Ornamental Features

All American Magic Rose features bold lightly-scented double white flowers with buttery yellow overtones and red stripes at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The serrated oval compound leaves turn yellow in fall. The spiny brick red bark adds an interesting dimension to the landscape.

Landscape Attributes

All American Magic Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

All American Magic Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

All American Magic Rose will grow to be about 6 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
